“Provide Electrical Engineering Services which leads to accurate Electrical Capacity with Faster Turnaround Time”.

Our Electrical Engineering Services

- Lighting Design
- Emergency Power System Design
- Fault Level Calculations
- Emergency Lighting Design
- Sizing Service Demand
- Cable Scheduling
- Load Calculations
- Voltage Drop Calculations
- Power Riser Design
- Electrical Equipment Specifications

Why United-BIM for Electrical Engineering Services

- Faster Turnaround Time
- Accurate Electrical Capacity
- Low Maintenance Cost
- Safe Electrical Design System
- To Maintain Power Quality
- Effective Resource Management
- Adherence to Industry Standards
- Access to Trained Engineers
- Best-in-class Technology and Software Solutions
- Compatibility and Interoperability
